NOW IT IS TIME TO IMAGINE.

To give new meaning to how you live your home.

Imagine all your projects, even the most ambitious, those where you challenge possibilities and common use of wood. Now imagine seeing them finally accomplished.

With Mardegan Legno surfaces, you can now create exclusive settings and give new meaning to surfaces, thanks to the numerous colours, finishings and shapes suggested. Wood becomes the protagonist and creator of a unique bond between past and present, ready to make you rediscover harmony with nature.

SUPERFICI D'AUTORE

immagina 180

hectares of responsibly managed forest

Imagine the story of a responsibly-managed forest in the heart of Europe. Trees grow, looked after and protected. Only at the right time they are selected to become your dream floor.

Imagine a production process that respects and protects nature and people for a responsible choice of interior design.

The mark of responsible forestry

Production site certification

The mark of responsible forestry

Commercial site certification

We carefully respect FSC® (Forest Stewardship Council®) certification principles for both the production and commercial site without interrupting the chain-of-custody foreseen by the certification. Thanks to this, on request, we can provide the FSC® certification on our oak wood. Find our FSC® certified products.

There is one thing automatic machines will never obtain to simulate surface finishings or speed up colouring and painting: it is the know-how of the expert hands working the wood. That is why our production headquarter is in direct contact with the best raw material, the Slavonian oak. Here we employ only experts in wood who use their knowledge to transform it into parquet and superb quality facings.

immagina **40**
years of experience

From the trunk to the finished floor, at Mardegan Legno we take care of every step of the process, because we want to guarantee the highest possible quality of each of our floors at all times.

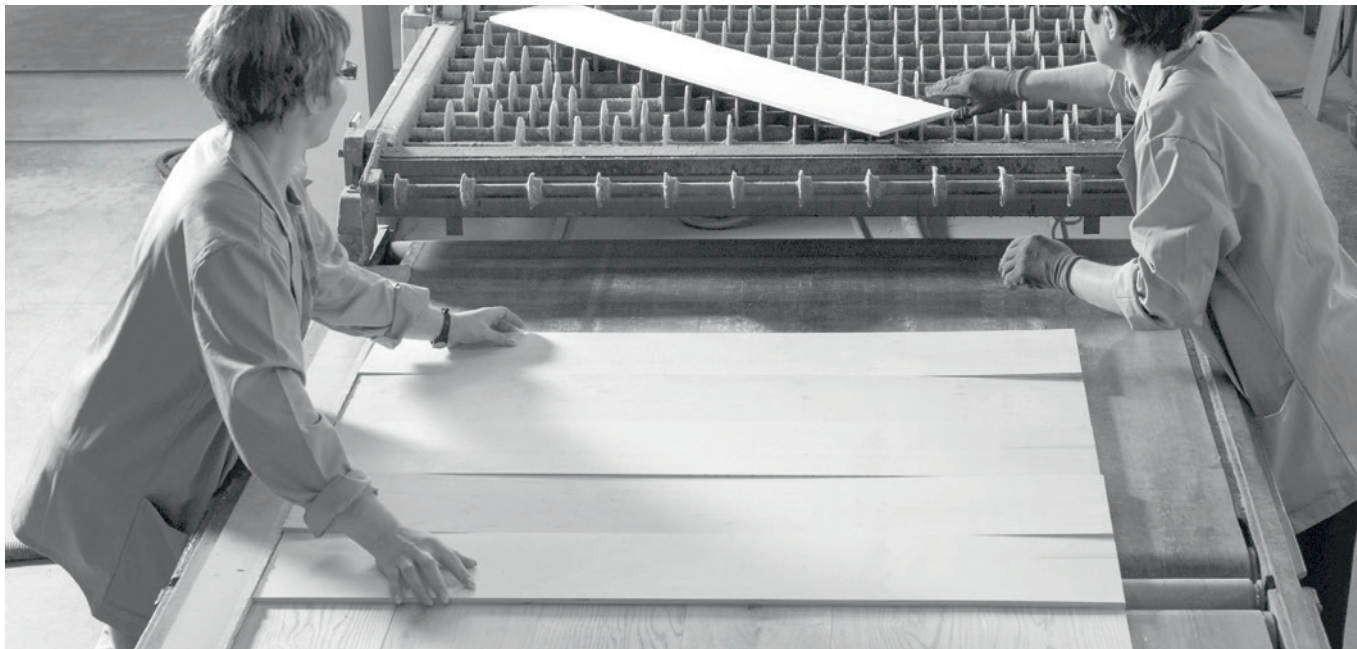

Choosing the wood

Cutting the trunks

Selection of the slat

Assembling the layers

Treating the surface

Colouring

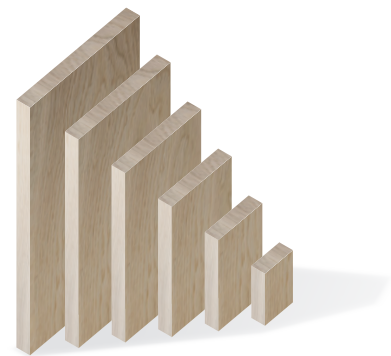

Finishing

Quality control

20 sizes:
from 65 to 500 mm wide and
from 930 to over 3050 mm long.

Our love for nature oblige us to use each trunk carefully. We take the greatest care about how much to cut to not waste the result of centuries of growth in just few moments. That is why we offer a choice of boards in different sizes, just as they were sawn.

5 structures

With Mardegan Legno, you can decide the structure of your parquet and choose the composition of layers best suited to your needs. Each layer of wood is conceived to make the floor durable and stable over time.

12 hand-crafted finishings

Watch the videos of our work on:

www.mardeganlegno.com/lavorazioni

14

Pre-smoothed

Machine smoothed for a particularly smooth surface.
Bevel on 4 sides.

Brushed

A series of brushes remove a minimal part of the softest surface to emphasise the flames.
Bevel on 4 sides.

Sawn

This surface treatment on 7.2 mm thick wood slat evokes the most ancient process of sawing.
The marks left by the blade on the surface are then smoothed by hand.
Bevel on 4 sides.

Aged

Hand smoothing to create "groove" effects along the top and edges of the board.
This creates the pronounced three dimensional effect of a surface marked by the signs of time.
Rounded and irregular bevel on 4 sides.

Sandblasted

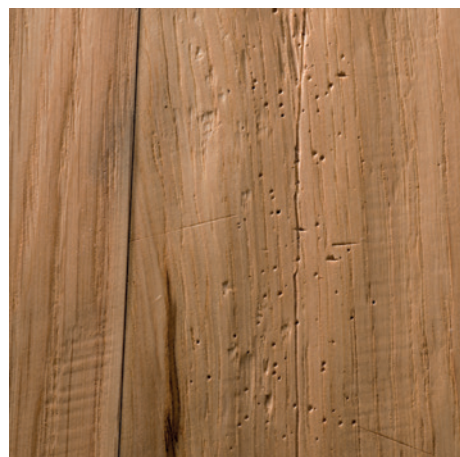

This very high pressure process removes the softest fiber of the wood, creating the effect of a surface marked by the signs of time.
Bevel on 4 sides.

Sawn and Sandblasted

The 7.2 mm thick wood slat are sawn and sandblasted.
The enhanced grain down the length of the board combines with the marks left by the sawing to create a geometric pattern exclusive to Mardegan Legno.
Bevel on 4 sides.

15

Hand Planed and Antiqued

This is the most complex manual treatment, combining planing and ageing to reproduce the style of bygone days and the signs left by time.
Bevel on 4 sides.

Hand Planed

Skilled craftsmen plane every single board by hand using blade planes. The surface comes to life, creating a play of volumes and movement on the floor.
Bevel on 4 sides.

Rounded and Hand Planed

In addition to hand planing, the long sides of the boards are also rounded manually to give the floor an attractive "wave" effect.

Rounded and Sandblasted

The wave effect on the long side of the boards gives the surface a three-dimensional effect, while sandblasting emphasises the naturalness of the wood grain.
Bevel on 4 sides.

Soft Planed and Sandblasted

Very gentle planing performed only on large boards, which are then enhanced and enriched by sandblasting.
Bevel on 4 sides.

Hand Sculptured

This exclusive manual process is performed by master craftsmen using chisel blade planes. The result is an evocative interweaving between the marks left by the sculpting and the grain of each individual board.
Bevel on 4 sides.

The floor with the Mardegan Legno signature:
guarantee, safety, resistance.

Safe and tested surfaces

Wood is an important, precious and refined material. According to our principles and philosophy, we carried out a series of “resistance tests” at Catas (R&D centre and testing laboratories for wood and furniture, environment and food) to reassure you about your choice: your floor is safe and resistant. If it changes, it will only be because of the natural spontaneous evolution of the wood.

ABRASION RESISTANCE TEST
UNI 15185:2011

SCRATCH RESISTANCE TEST
UNI EN 15186:2012

DIRT RETENTION TEST
UNI 9300:2015

CHEMICAL RESISTANCE TEST
EN 13442:2013

LIGHT RESISTANCE TEST

UNI 9429:2015

Quality certifications

UE 955/2010

EN 14342:2013+A1/2008

UNI EN 13489

We chose to comply with the standards connected to the concept of “legal timber” for flooring specified in EU 995/2010 and the regulations on conformity evaluation criteria, characteristics and marking for finished wood flooring in EN 14342:2013+A1/2008.

In addition, each wood floor we produce is accompanied by a “product sheet” and “declaration of performance”, as required by UNI EN 13489 for multilayer pre-finished flooring.

Antibacterial surface

respecting people and environment.

LEED requisites

As a guarantee of eco-sustainable quality standards, Mardegan Legno products respect the requisites of LEED®, a U.S. system for classifying energy efficiency and ecological footprint of buildings specifying a series of measurement standards to assess environmentally sustainable buildings.

Certificate of authenticity

We are so careful and proud of the quality of our surfaces that we sign our products with our own trademark, the dragonfly, symbol of delicacy and elegance, but also of the constant ferment and enthusiasm we invest in our work.

The Welcome Box is our gift to welcome you into the Mardegan Legno's world. Inside you will find a certificate of authenticity describing the process leading from the forest to Mardegan Legno parquet, a product sheet and our Natural Speaker for an extra touch of harmony in your environment.

We love things well done

14

collections

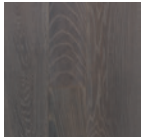

Imagine an emotional journey through colours and textures of a timeless material. Woods, colours, finishings, shapes and patterns: 14 hand made collections chosen for your freedom to imagine and design.

MALTO

Twenty nuances dedicated to the centre of Italian design, international symbol of elegance and modernity. Described in the scale of essential whites, greys and beiges, inspired by the marbles used in the city's historic buildings and most characteristic monuments, such as the Cathedral.

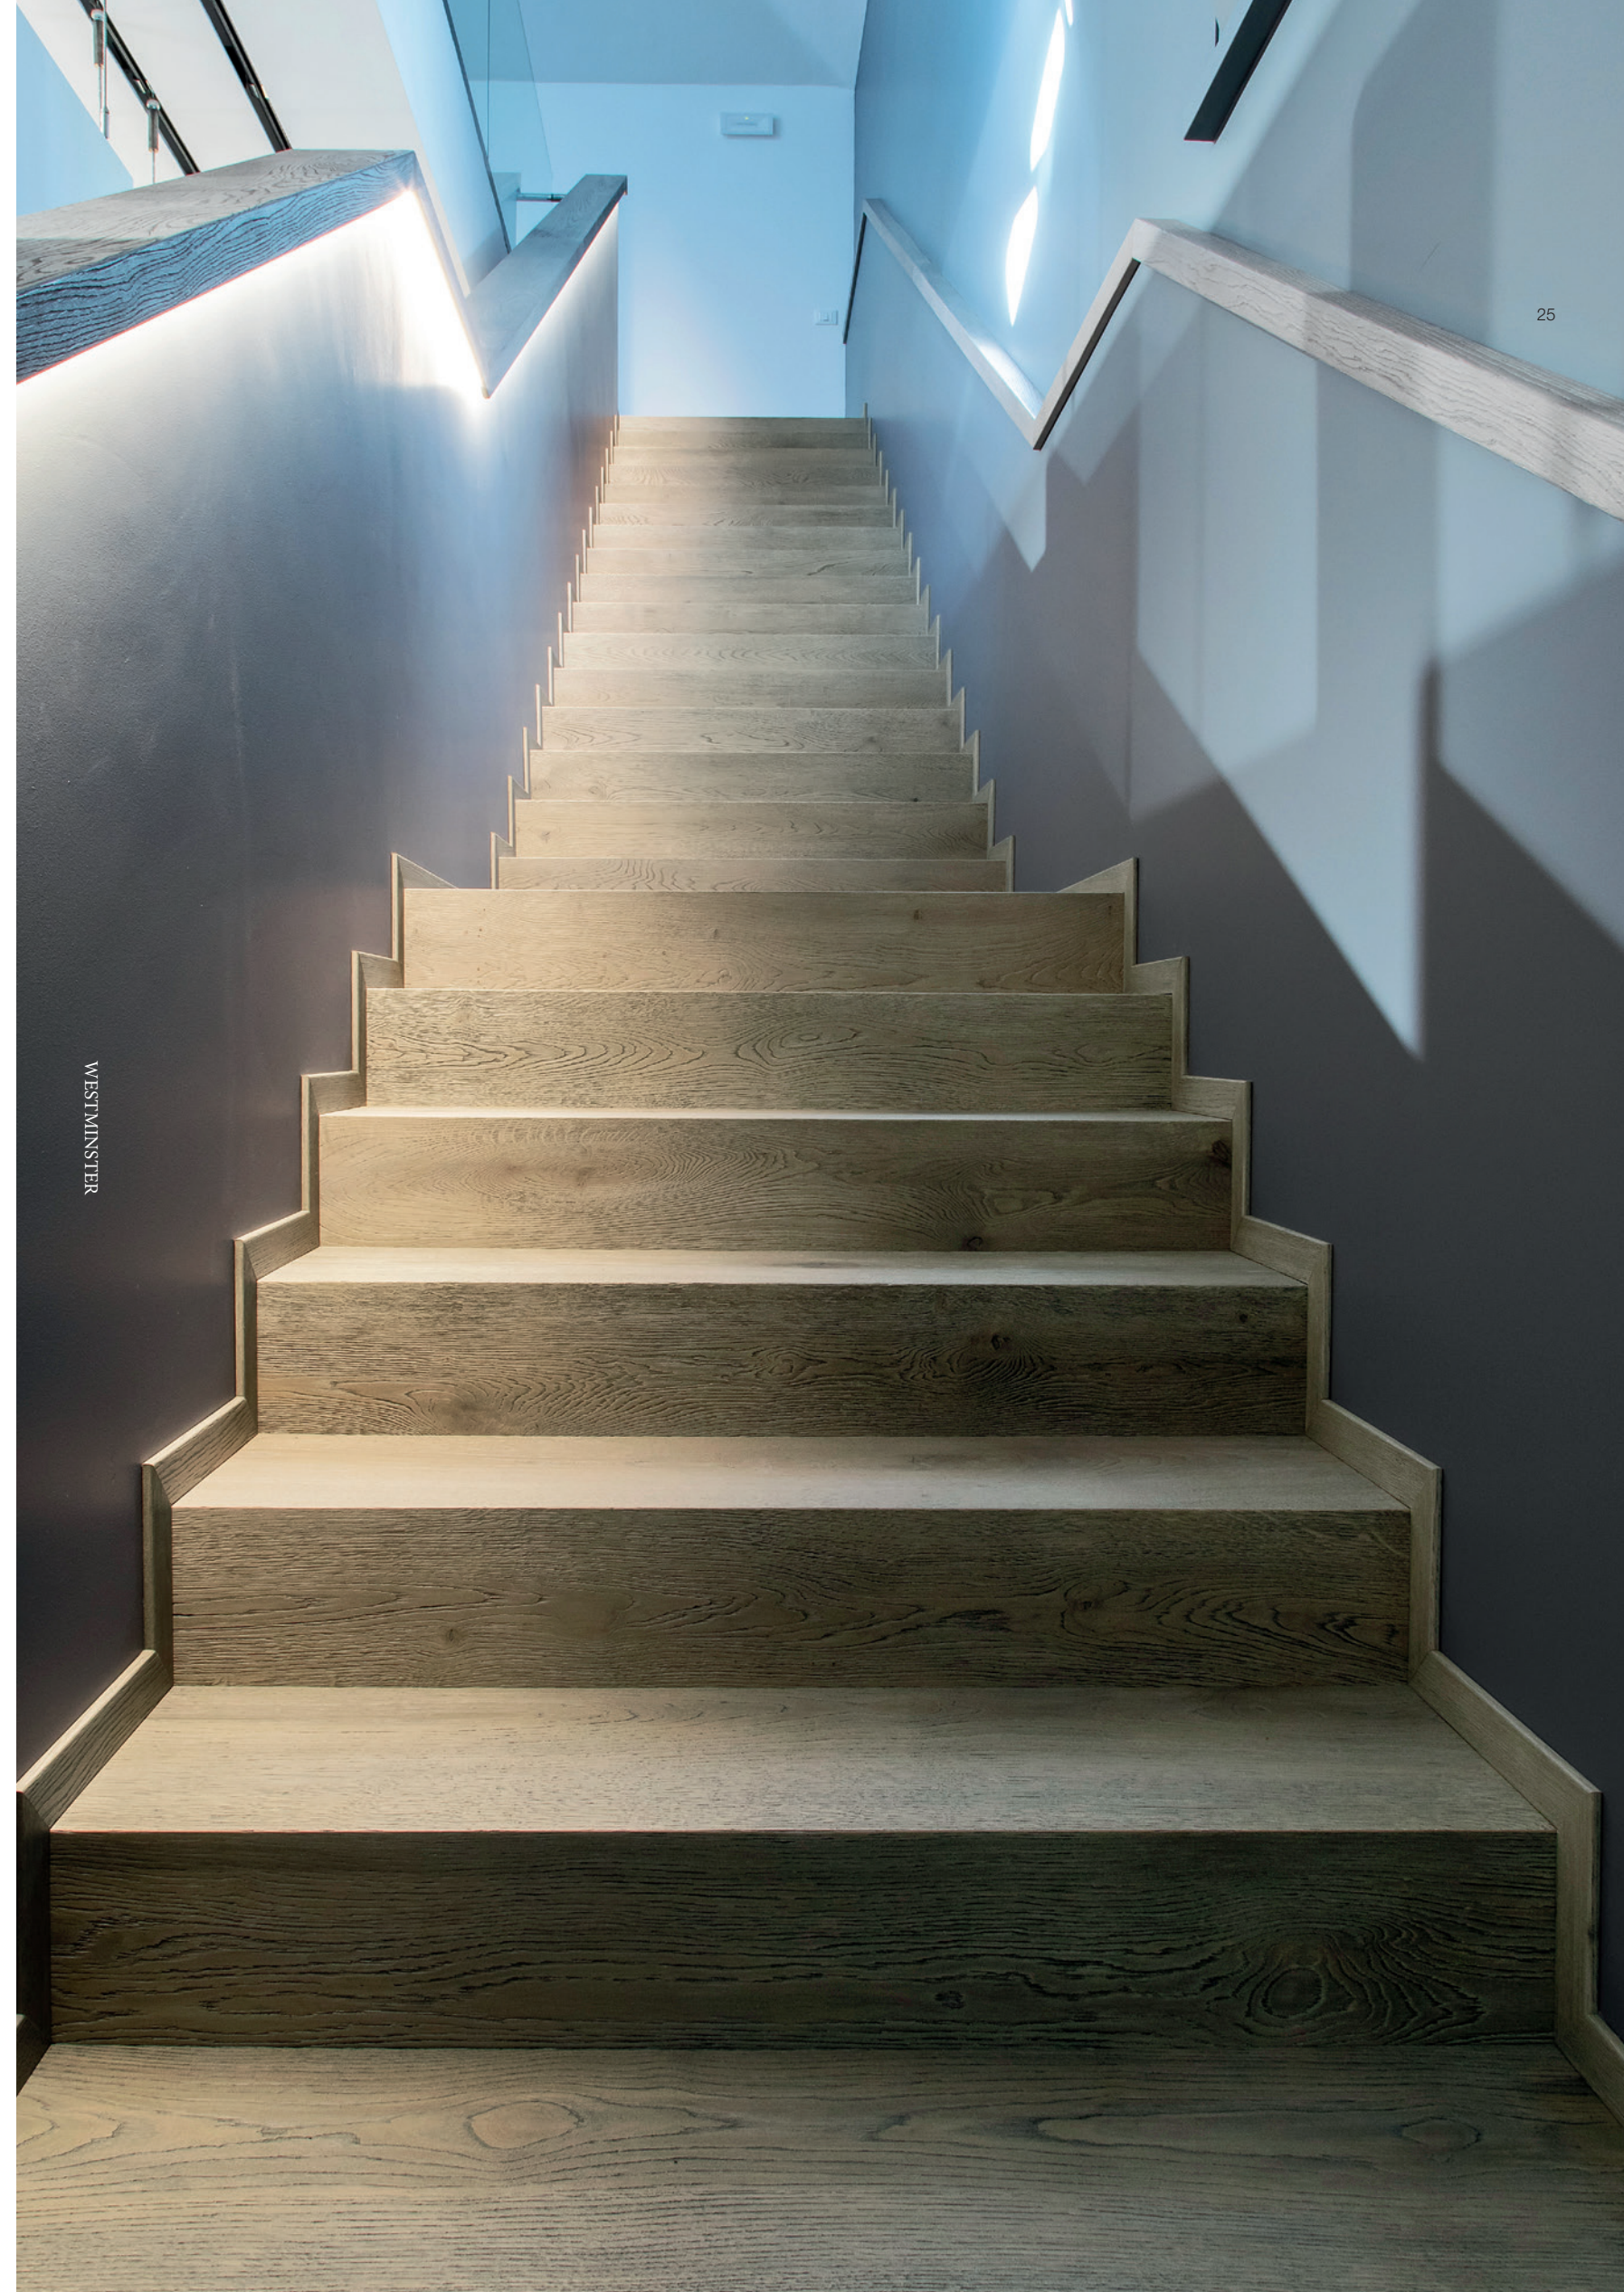

MILANO STYLE COLLECTION

				
Bianco Luna	Carbone	Cipria	Crema	Curcuma
				
Essenza	Ghiaccio	Grafite	Grigio Ferro	Grigio Oltremare
				
Latte	Malto	Nebbia	Panna	Sabbia
				
Senape	Torrone	Variegato	Vecchio Carta	Zucchero

A collection inspired by the atmospheres of London, dominated by a cold grey palette. Nine shades to capture the mutable soul of the English capital, emphasized by the sandblasted surface.

LONDON MY LIFE COLLECTION

New York is the symbol of complexity and a crossroads between lives and stories from all over the world. This collection pays tribute to its architectural contrasts and bold colours, highlighted by the numerous available finishings.

CENTRAL PARK

LIVE IN NEW YORK COLLECTION

Broadway Brooklyn Central Park Harlem Hudson Manhattan Marble Hill New Jersey Park Avenue Time Square West Side

OPERA

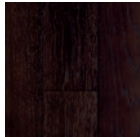

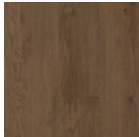

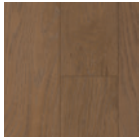

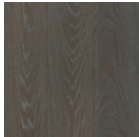

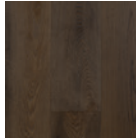

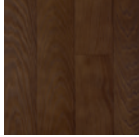

Nine floors to bring back to life the air you breathe while walking in Paris: a special shade of light, the colour of Haussmann's stone mansions, the centuries of art and history.
 A range of colours oscillating between warm greys and beiges, with accentuated nuances.

PARIS MON AMOUR COLLECTION

A timeless collection, warm colours and traditional finishings for lovers of the classic style. "Firenze Style" absorbs the atmosphere of Italian classicism and renders it vivid and elegant with its aged, bright, warm colours and hand-crafted finishings.

FIRENZE STYLE COLLECTION

				
Avana	Brandy	Caffè	Cannella	Caramello
				
Cenere	Cognac	Cuoiò	Grigio Artico	Grigio Cemento
				
Grigio Fumo	Miele Chiaro	Miele Scuro	Neve	Nocciola
				
Noce	Oro	Rovere Antico	Sughero Antico	Tabacco
				
Terra	Vecchio Casale			

MIELE CHIARO

The beauty, power and strength of secular trees such as oaks, in a collection that represents an ancestral return to the origins. Rich in shades and finishings, it comes in eleven different nuances, with the knots and cracks highlighted by special surface treatments such as planed and sandblasted.

QUERCIA TURCHESE

QUERCE MILLENARIE COLLECTION

Quercia Acquamarina Quercia Argentata Quercia Bronzo Quercia Corallo Quercia Diamante Quercia Dorata Quercia Giada Quercia Opale Quercia Platino Quercia Smeraldo Quercia Turchese

Ten colours created by a natural heat process that makes this collection unique for true connoisseurs. The solid Slavonian oak undergoes a unique heat treatment, creating full-bodied decorative effects with natural, irregular and nuanced colours.

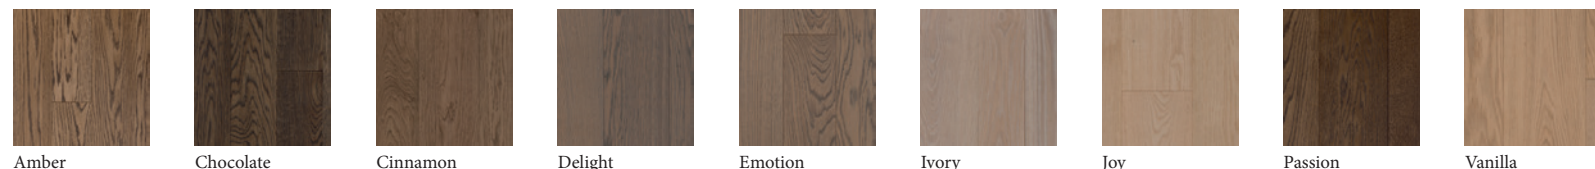

BARRICATI COLLECTION

PASSION

For lovers of natural tones, this collection created using oil-based products features matt colours that bring out the naturalness of the wood in a variety of shades celebrating the warm palette of browns and beiges.

Amber

Chocolate

Cinnamon

Delight

Emotion

Ivory

Joy

Passion

Vanilla

HARMONY & NATURE COLLECTION

FREMITO

This oil-treated collection brings out the truest and most intense expression of the wood. The oil treatment protects the wood from mechanical stress and gives it a natural colour, an effect that intensifies over time, bringing out the full brightness and warmth.

SOUNDS OF DANUBIO COLLECTION

An exclusive research project, that includes the beauty of wood matured over time. "Pezzi Unici" brings together different woods: walnut, oak, elm and acacia. They have in common finishings that enhance raw materials and history.

PEZZI UNICI COLLECTION

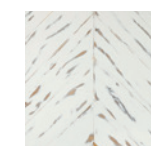

Applying the steel inserts.

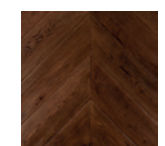

Palatino is the large chevron parquet collection, presented in five colours. Chevron parquet has always been a refined pattern for elegance lovers. The collection stands out from the usual format for the exclusive engraved finish and extra width of the Palatine pieces.

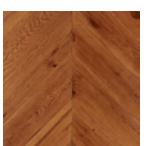

PALATINO COLLECTION

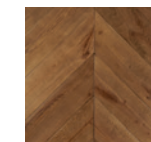

Angora

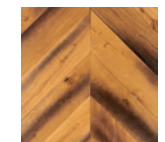

Broccato

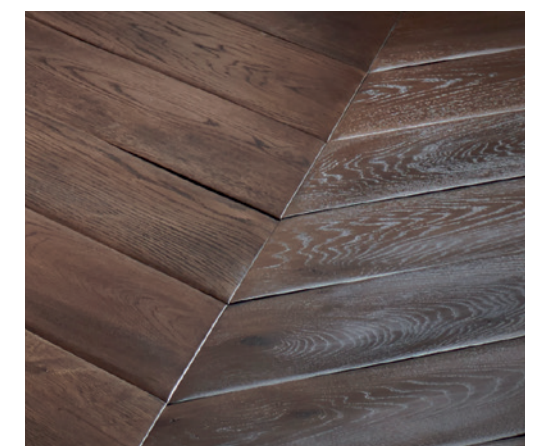

Organza

Raso

Velluto

Engraved finishing
Reserved exclusively for the Palatine collection, this process recreates the unique atmosphere of ancient noble palaces. Deep incisions run lightly along the piece, revealing the most intimate beauty of the wood.

A full and opaque colour is the protagonist in this new and evocative collection conceived around a play of light tones and pastel shades.

EMOTIONS & COLOURS COLLECTION

CARAVAGGIO

Bihoma is the eco-sustainable Mardegan Legno collection that allows you to decorate your home completely naturally, thanks to use of an innovative 100% ecological varnish, formulated with exclusively renewable and plant-based sources with low CO2 emissions.

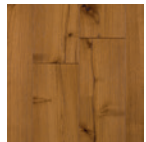

BIHOMA COLLECTION

ALOE

Six different woods.
Without alteration or modification for wood flooring exactly as nature created it.
According to the kind of wood chosen, the floors distinguish in maturity, hardness and shade.

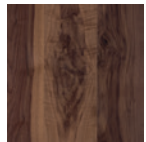

NATURAL WOOD COLLECTION

Acacia

European Cherry wood

American Walnut

European Walnut

European Elm

Oak

CHEVRON AND HERRINGBONE

The heritage of ancient mansions and prestigious settings, chevron and herringbone parquet create fascinating wood floors and represent an exclusive laying choice for both classical and contemporary settings.

Discover Mardegan Legno's chevron and herringbone formats at:

www.mardeganlegno.com/forme/spine

51

PARQUET SQUARES

Inspired by castles and the charm of noble mansions and homes, our parquet squares create refined wood floors with elegant geometric patterns commonly realized in squared shapes. Hand finished and assembled, our catalogue includes a range of models, colours and treatments. We can also make exclusive customised designs on request.

Discover Mardegan Legno's parquet squares at:

Exclusive patterns

DAMASCO

Damasco is a geometric surface based on a hexagon, designed to enhance the beauty of wood through a sophisticated play of different colours and textures for a precious and timeless result. Available in all colour variations for brushed and sandblasted finishings.

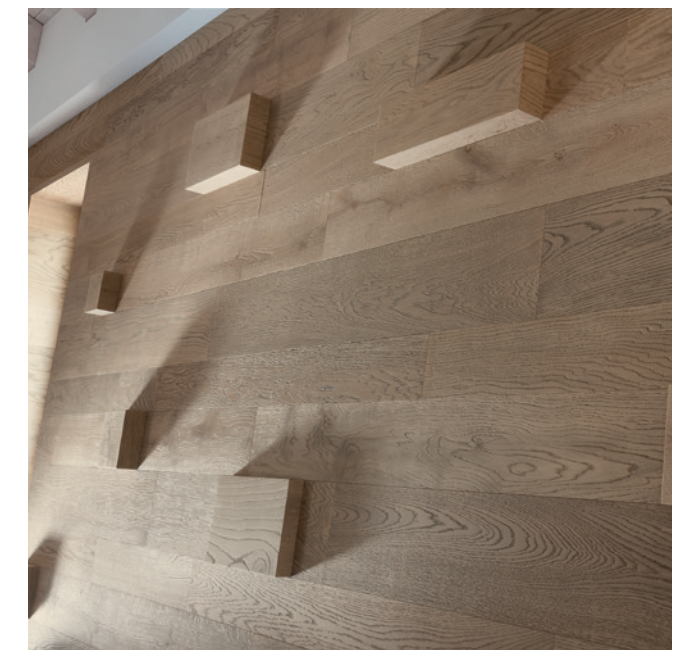

CASABLANCA

Uniform in colour, but rich in the texture, Casablanca surface combines the natural fiber of the raw material with patterns created by shapes and intersections.

WALL:DESIGN

WALL:DESIGN is a collection of wood panelling ultimate to give walls both a distinctive and welcoming feel. Available in four different patterns. In addition to European Walnut and American Walnut, the Oak version is also available in several colours.

BE:WALL

BE:WALL is conceived to create wood walls enriched with exclusive three-dimensional decorative motifs, designed and created to decorate any setting with originality and elegance. BE:WALL surfaces can be created in all colours available in Mardegan Legno's collections.

large head office in Italy

While our productive heart is in direct contact with the raw material, our creative soul lies in the heart of Italy's wood district.

In our head office in the province of Treviso, we created an environment where you can find answers and practical solutions, enter into new business relationships and let imagination lead the way.

Here you can find the nerve centre of Mardegan Legno, with its offices, showrooms, a workshop where you can get to know the products in detail and the logistics and the distribution hub for the whole company.

Creative soul

We are so careful and proud of the quality of our surfaces that we sign our products with our own trademark, the dragonfly, symbol of delicacy and elegance, but also of the vibes and enthusiasm we invest in our work.
